Dear John

Having just left a finance meeting I feel compelled to write to thank you for the work you have done for us over the last 18 months.

You suggested some time ago that we installed more efficient lighting in the corridors, controlled by motion sensors. We were reluctant as the initial outlay was outside our planned budget spend. However, we were able to find the money to have the work done and are extremely delighted that not only was the work done without any inconvenience to our tenants, but our electricity bill has been reduced by approximately £5000 this year, at a time when our occupancy rates have risen and we had budgeted for a 5% increase!

Recently you undertook the 5-yearly EICR testing which is usually a real dread for us, as it is impossible to carry out without disturbance to the tenants here. For the first time ever, we have received no complaints whatsoever and are again delighted by Andrew's work ethic and care for the needs of the customer.

We look forward to a long continuing relationship with yourselves, and hope that your move to larger offices runs as smoothly as the work you have done for us.

I am happy to repeat this good reference to any prospective customers, please feel free to pass them my contact details.

Yours sincerely

Catherine Beatty  
General Manager
